NOTES

The data source for this report is the Police Department's Computer-Aided Dispatch (CAD) database. That means the data are drawn from the information police dispatchers enter into the computer as calls occur. The primary limitation of these data is that they may not reflect the actual nature of a call or its true final disposition. Thus, some care should be exercised in interpreting the results presented here. Animal-related calls are excluded from this analysis.

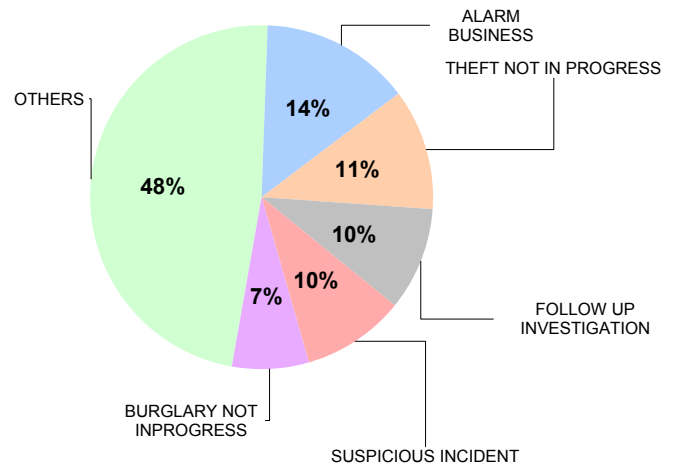

Questions regarding the results presented here, the data source, or this report's preparation should be directed to:
